

Emergency Management Plan

Consider your job and your future workplace needs for emergency management planning.

Your job title:

Identify potential emergency situation: (choose from among): Tornado and power outage, active shooter, chemical leak or spill, disease/outbreak, building fire

Use your classroom or workplace to answer the following questions...

1. **Prevention:** What steps would you take to prevent the emergency or minimize damages?
2. **Preparedness:** How would you train or prepare for this emergency?
3. **Response:** How do you coordinate and manage resources (including personnel, equipment, and supplies)? What are your goals for successfully dealing with this incident?
4. **Recovery:** What would you need to do to get things back to normal after the emergency?
5. **Mitigation:** What can you do to prevent the emergency from happening again?

What are the benefits of emergency planning?

How can emergency planning experience help you in an interview?
