How to Use This Manual

The purpose of this manual is to provide step-by-step instructions for using E-SESS, the online testing program used by CTECS. It also includes information on usage of the Participant menu options and the reports contained in E-SESS.

Notes/Tips:

- Official test site administrators have access to the menu items covered in this manual. Individuals with “teacher” accounts have access to the reports but not the options listed under the Participant menu.
- The words “participant” and “student” are interchangeable in the E-SESS software and this manual.
- You can use CTRL-F to search the manual for specific words/phrases.
- Contact CTECS when you require assistance:

Introduction

Soon after you submit the Test Site Administrator Registration and Agreement form, an E-SESS administrator account is set up for you and an email sent from <info@techfluency.org> with account login information. This document provides step-by-step instructions for using E-SESS.

You will need to log into E-SESS to enroll students, print test tickets, make changes to student data, and generate reports. Your students will access E-SESS with their own logins to take the test.

Logging into E-SESS

1. Follow the link provided in the email message https://www.techfluency.org/esess/admin/
2. Enter the username name provided in the email message in the User Name field.
3. Enter the password in the Password field.
4. Click the Log In button.
5. The first time you log in, you will be prompted to change the temporary password to one of your choice. It must be 8-characters in length. Make a note of the password! CTECS cannot access the password you set!

Admin Login

By honoring our copyright, you enable us to invest in research for education.
Contact TFI • Email: info@techfluency.org • Phone: 866-277-5061

Using Your E-SESS Administrator Account
Using Your E-SESS Administrator Account

6. A screen similar to the one below will display.

*Important!* If you had a test site administrator account in previous school years, linked to the same email address you used this year, you will have more than one organization to select from. If you need to access student, testing data from an “Inactive Organization,” select one from the list. The admin account settings that were in place that year will remain the same.

*Use this drop-down menu to log out, change your password or change to a different organization (if available).*
E-SESS Menu

The menu provides access to participants, reports, and the Help menu.

Clicking on “Switch to Legacy Menu” takes you to the FORMER E-SESS user interface. Instructions in this manual are for using the NEW user interface, so do not switch to the legacy menu.
Import

Instructions in this section should be followed if you are using the preferred “instant enrollment” method of enrolling students where you import student data at your convenience and test tickets are immediately available.

If you are using the FORMER enrollment option where student registration forms are uploaded to CTECS for processing, skip this Import section.

**Note! If you need assistance importing student data, please contact CTECS. We will be happy to help you learn the instant enrollment method.**

Prefill Values

E-SESS contains a feature that allows the use of drop-down menus to select fields that were previously required to be filled in on the student registration form (Excel spreadsheet). For example, instead of entering the school division and code on each line in the student registration form, it can be selected once, from a drop-down menu. These drop-down menus are called "prefill values."

Fields available as prefill values are:

- School Division
- School
- Test Site Administrator
- Course Code
- Assessment

Note: Using prefill values is optional. Students can be enrolled from a complete student registration form.

The student registration form should be downloaded from [https://www.ctecs.org/virginia/student-registration](https://www.ctecs.org/virginia/student-registration). It contains two sheets in the file, one with the required column headings and one that contains sample column entries and instructions. Click the yellow “Instructions” tab to view the instructions. Enter student data on the sheet labeled “WRS Registrations.”

Prepare the student registration form and import the student data

1. Complete the student registration form according to instructions, except delete the columns that will not be necessary because of the prefill values you plan to use.

**IMPORTANT!** Remember, the prefill values you select will apply to every student listed on the registration form!
Note: It is not necessary to use all prefill values. Example: If you need to enroll some students for the pretest and others for the official test on the same student registration form, do not use the "Assessment" prefill value. Just list the test titles in the "Assessment Name 1" column on the registration form. Example: If students listed on the form are from two or more schools do not use the "School" prefill value. You should list each school on the student registration form.

2. Log in to your E-SESS account.
3. Select the Participants menu.
4. Select Import. The Import options will display.

5. Click the Browse button to navigate to and select the student registration form (Excel file) for import.
6. Click the Import button if you are not using prefill values and go to Step 10. Otherwise, click the Prefill fields button and follow the instructions below.
7. If you clicked the **Prefill fields** button, the menu below will display.

![Select prefill values](image)

8. Click the down arrow next to each field and make the appropriate selection.
9. Click the **Set Prefills** button to continue or the **Cancel** button if you need to start again.
10. Click the **Import** button to import the student data. If the import is successful, you will see a message noting this. If there are errors to be corrected, they will display.

**Updated records**: You may see a message indicating that some records were updated. This means that some students on the registration form were already present in E-SESS but their records were "updated" with the information from the student registration form. **Example**: If a student had previously been enrolled for the pretest and has just been enrolled for the official exam on the student registration form just imported, the "updated" message will display.
Correcting Errors on the Student Registration Form

Below are examples of error messages you may see.

Use this information along with other resources provided on the CTECS website (the school division and school code and course code documents) to correct the student registration form. Then, try the import again.

Occasionally there are "hidden" values in the spreadsheet cells. If errors are noted on rows that appear to be blank on the registration form, select and delete the rows.

To quickly delete all blank rows:

1. Select the first blank row to be removed.
2. Press the keys Shift/Ctrl then the down arrow key.
3. Right click and select "Delete" from the pop-up menu.
4. Save the file (preferably under a new file name to retain original data).
Add New

Use this form to enroll a **new** participant (student) that, for example, was left off of the registration form that was previously processed. This form **CANNOT be used to change student information or to add another form of the assessment to a student’s account.** Use the **Edit Existing** option on the **Participants** menu to make changes to the demographic data for a **currently enrolled student** or to add an additional form of the test to a student’s account. For example, use the **Edit Existing** options on the **Participants** menu report to add a retake to a student’s account.

If you have more than a few new participants to enroll, it is more efficient to enter the required data on the student registration form (Excel) provided on the CTECS website.

To add a new student:

1. Complete the required fields.
2. Click the **Create new participant** button. You will see the “successfully created” message or an error message.

![Add Participant Form](image-url)
Edit Existing

Use this report to view and/or change demographic data for a student and to add a “form” of the test to a student’s account. **Example:** If a name is misspelled, it can be corrected here. You can change the teacher name, course code, school, SWD designation, etc. The only thing you cannot do is change the STI, because that field is locked. If a student’s STI needs to be corrected, contact CTECS for assistance.

To change demographics:

1. Select *Edit Existing* from the *Participants* menu.
2. Use the filters (optional) to see the desired group of students.
3. Click the *Show report* button. The list of students is displayed.
4. Click the *Edit* button to edit demographics.

To assign/unassign a form of the WRS assessment:

1. Select the *Edit Existing* from the *Participants* menu.
2. Use the filters (optional) to see the desired group of students.
3. Click the *Show report* button. The list of students is displayed.
4. Select *Assign.* A screen similar to the one below will display.

```
Select the assessment(s) for student name (password)

1) CTECS Pretest Workplace Readiness Skills
2) CTECS Retake Workplace Readiness Skills
3) CTECS Second Retake Workplace Readiness Skills
4) CTECS Workplace Readiness Skills
5) WRS Sample

** Check or uncheck a test title. (** indicates the test has been taken.) The assessment is assigned/unassigned immediately and a test ticket can be generated.
```
To assign/unassign a test to more than one student, click **Select a Single Assessment**.

1. Select the test to be assigned from the drop-down menu.
2. Click the checkbox next to each student's name. The assessment is assigned/unassigned immediately and a test ticket can be generated.
Test Tickets

Steps to E-mail/Print Test Tickets Report

Prior to the day of the test, you will need to access E-SESS and generate the Test Tickets report. This report contains “test tickets” that allow each registered student to login and take their test. Once the report is generated, you will be able to view/e-mail/print the report and distribute the test tickets appropriately.

The Test Tickets report generates an alphabetical, block-format list of participant names and passwords. Note that only unused tickets are generated. The report is designed to be printed. Each login information block can be cut out and distributed to the participants or test proctors.

This report can be created using filters. If no filters are used, the default Test Tickets Report lists all participants.

To use the Test Tickets Report:

1. Select the Test Tickets report from the Participants menu. The Test Tickets report filters displays.

![Test Tickets Report](image-url)
2. Filter the report.
   a. Click the + to expand the filter.
   b. Click the drop-down arrows to set the range.

The "Pagebreak on" drop-down enables the report to insert a page break on designated demographic (for example, “Search by Last Name”). The login cards are then grouped by that demographic; each new demographic prints on a new page with a header listing the demographic.

3. Click the Show test tickets button. A filtered Test Tickets Report displays.

4. Print, e-mail, or save the report as a pdf by following one of the steps below.
   a. (recommended) Click the PDF Version button to create a pdf version of the report.
   b. Click the Print button to see a printable version of the report in your browser window.
   c. Enter an e-mail address to e-mail the report to yourself or someone else.

Test tickets contain login information for the student(s) to access their test.

| Site URL: | https://tecflluency.org/esess/ |
| Org. Name: | organization name |
| First Name: | student’s first name |
| Last Name: | student’s last name |
| Password: | password |
| Assessment: | name of assessment |

**Note!** If an asterisk (*) is next to “Assessment:” the student has been marked for and will receive accommodations. A musical note denotes that audio will be available.
Locks

When a student is registered for more than one form of the VA WRS (forms include: WRS Assessment, WRS Pretest, or WRS Retake) only one password is issued providing access to all three. Therefore, measures should be taken to prevent students from logging into E-SESS and taking the test on their own. As the test site administrator, this is part of your responsibility as agreed to in the Test Site Administrator Registration and Agreement form.

E-SESS has a Participant Lock feature. The Participant Lock should be used if students have been provided with a test login password and are enrolled in more than one form of the test. If students have taken the Pretest and try to access the official test within 9 calendar days, the system will automatically prevent them from testing. The same is true for Retakes except it is 14 calendar days. But from day 15 on, a student can access the “next” test unless the test site administrator has locked the participant out of the test.

You can lock or unlock a selected group of students by filtering by student last name or by school. CTECS requests that you lock/unlock all participants. We will not be held responsible if a student takes a test on their own. Instructions on how to control Participant Locks are provided below.

Please contact CTECS if you have any questions.

To use the Participant Locks:

1. Select Locks on the Participants menu. The Participant locks filters display.

![Participant Locks](image.png)
2. Filter the report, if desired.
   a. Click the assessment name to filter by a specific assessment or set of assessments. To select more than one assessment, press and hold the Control key while clicking the assessment name.
   b. Click the + to expand the Search By filter.
   c. Click the drop-down arrows to set the range.

3. Click Show Locks. The list of students and assessments displays.

4. To affect all participants:
   a. Click the Check to lock all assessments box to restrict access to all assessments.
   b. Click the Check to unlock all assessments box to enable access to all assessments.
      Note: The "unlock all assessments" only applies to the assessments and NOT the student account.

   OR

   To affect selected participants, click the button next to the assessment name to lock/unlock the assessment. To lock a student’s account, click the Locked button on the row with the student’s name.

5. Click the Update Locks button. Changes are saved.
Assessment Enrollment

The Assessment Enrollment Report shows the total number of students who were enrolled for each form of the test, completed each form of the test, and passed each form of the test. This report is mainly used to verify totals for the end-of-year verification process.

To use the Assessment Enrollment Report:
1. Select Assessment Enrollment from the Reports menu. The report filters display.
2. Filter the report, if desired.
   a. Click the assessment name to filter by a specific assessment or set of assessments. To select more than one assessment, press and hold the Control key while clicking the assessment name.
   b. Click the + to expand the Search By filter.
   c. Click the drop-down arrows to set the range.
3. Click the Refresh button after making selections. Updated data will be displayed.
Assessment Scores

This report enables administrators to quickly see what each participant scored on a particular assessment. The report also provides the date that the assessment was completed and the status (accessible or locked).

To use the Assessment Scores Report:

1. Select **Assessment Scores** from the **Reports** menu. The report filters display.
2. Filter the report (*optional*).
   a. Click the + to expand the filter.
   b. Click the drop-down arrows to set the range.
3. Click the **Show Assessment Scores** button. The report will display.
4. Print, e-mail, or save the report as a pdf or Excel file by following one of the steps below:
   a. Click the **Print** button to see a printable version of the report in your browser window.
   b. Enter an e-mail address to e-mail the report to yourself or someone else.
   c. Click **Excel Output** to open the report as an Excel file. This file can be saved on your local computer and distributed as needed.
   d. Click the **PDF Output** button to create a pdf version of the report.
Assessment Statistics

The Assessment Statistics report provides data about a specific assessment. Data includes:

- number of participants who have taken the assessment
- date range of the assessment administration
- time limit for the assessment, if applicable
- minimum and maximum score possible
- low, high, mean, median, and mode scores
- standard deviation
- range and interquartile range
- lowest number, highest number, and average number of items answered
- shortest time, longest time, and average time used to complete the assessment
- score distribution by range

To generate the report

1. Click the Assessment Statistics under the Report menu. The Assessment Statistics report filters will display.
2. Select the appropriate assessment.
3. Filter the report, if desired.
   a. Click the assessment name to filter by a specific assessment or set of assessments. To select more than one assessment, press and hold the Control key while clicking the assessment name.
   b. Click the + to expand the filter.
   c. Click the drop-down arrows to set the range.
4. Click the “Use cut score for graph breakpoint” box (optional).
5. Click the **Show Statistics** button. The Assessment Statistics displays.

Assessment Statistics Summary

The Assessment Statistics Summary report provides data about a specific assessment. Data includes the number of participants who have taken the assessment, number of items on the assessment, the low, high, and average scores.

To use the Assessment Statistics Summary report:

1. Select **Assessment Statistics Summary** from the **Reports** menu. The Assessment Statistics Summary report filters display.

2. Filter the report, if desired.
   a. Click the assessment name to filter by a specific assessment or set of assessments. To select more than one assessment, press and hold the Control key while clicking the assessment name.
   b. Click the + to expand the Search by filter.

CTECS Certificate

A CTECS Certificate may be produced automatically for each student with a passing score on the WRS assessment.

To use the CTECS Certificate Report:

1. Select CTECS Certificate from the Reports menu.
2. Select one or more assessments (optional).
3. Filter the report (optional).
   a. Click the + to expand the filter.
   b. Click the drop-down arrows to set the range.
5. Click the **View Certificates** button. You will see a certificate for each student with a passing score.

6. Use the options displayed in the browser window to download or print the certificates.
Grade Report
(Note: the Grade Report can only be generated for assessments with set cut scores. For other assessments, use the Assessment Scores Report. Refer to Page 18 for instructions.)

This report enables administrators to see the testing status of each student. Example: Use this report to see the assessments that have been completed or are still accessible to each student, the dates assessments were taken and the scores.

To use the Grade Report:
1. Select Grade Report from the Reports menu. The Grade Report filters display.
2. Click the button to show passing or failing scores if desired. Show all records is the default selection.

3. Select the assessment from the drop-down list.
4. Select one or more participants (optional).
5. Filter the report (optional).
   a. Click the + to expand the filter.
   b. Click the drop-down arrows to set the range.
6. Click the Show grade report button. The Grade Report is displayed.
   The report lists
   • the name of the assessment
   • grade scale (if there is one)
   • participants' names (ordered alphabetically by last name)
   • participants' scored percentage.

7. Print, e-mail, or save the report as a pdf or Excel file by following one of the steps below.
   a. Click the Print button to see a printable version of the report in your browser window.
   b. Enter an e-mail address to e-mail the report to yourself or someone else.
   c. Click Excel Output to open the report as an Excel file. This file can be saved on your local computer and distributed as needed.
   d. Click the PDF Output button to create a pdf version of the report.
**Participant Information**

The Participant Information Report shows any combination of participant information stored in the database. All demographic information, enrollment/start dates, and assessment details are accessible from this report. It is also used to extract a spreadsheet of password and assigned assessment information for each student.

To use the Participant Information report:

1. Select **Participant Information** from the **Reports** menu. The Participant Information report filters display.

(Continued on next page.)
Using Your E-SESS Administrator Account

2. Filter the report *(optional).*
   a. Click the + to expand the filter.
   b. Click the **drop-down arrows** to set the range.

3. Click the **Assessment Information** checkboxes to select additional report information, if desired.

4. Under the “Fields to Display” heading, use the **drop-down arrows** to select the fields to show in the report. The report will always include first name and last name, but any demographics can be included. You must select the **Assessments** field to see assessment details. Repeat the data selection for each field until all desired information is listed in the fields.
5. Click the **Show participant info** button. The Participant Information report appears. The participants are listed in alphabetical order by last name.
   - The onscreen report includes a "Demographic History" button for each participant who has had updated demographics at any point since the initial enrollment.
   - The Demographic History button opens a new pop-up window documenting all demographic changes as arranged by a timeline.

6. Print, e-mail, or save the report as a pdf or Excel file by following one of the steps below.
   a. Click the **Print** button to see a printable version of the report in your browser window.
   b. Enter an e-mail address to **e-mail** the report to yourself or someone else.
   c. Click **Excel Output** to open the report as an Excel file. This file can be saved on your local computer and distributed as needed.
   d. Click the **PDF Output** button to create a pdf version of the report.
Report Card

The Report Card report shows, by selected demographics, the total number of participants with pass/fail breakouts. The mean score for each demographic is displayed.

To use the Report Card report:

2. Select an assessment from the drop-down list. If results for multiple assessments are needed, click Merge results into a single report.

   **Note:** Merged results returns only the most recent score for each participant. Only one score per participant is returned, regardless of how many assessments are selected.
   a. Select the first assessment.
   b. Multi-select the next assessment (press and hold the Control key while clicking the next assessment in the list).

3. Select a demographic from the Group By drop-down list. The selected demographic is recorded and a second demographic list appears.

4. Select a second demographic from the drop-down list. Two demographics must be selected for the Report Card report.

5. Set the date range.

7. Print, e-mail, or save the report as a pdf or Excel file by following one of the steps below.
   a. Click the Print button to see a printable version of the report in your browser window.
   b. Enter an e-mail address to e-mail the report to yourself or someone else.
   c. Click Excel Output to open the report as an Excel file. This file can be saved on your local computer and distributed as needed.
   d. Click the PDF Output button to create a pdf version of the report.
Standards Performance

This report enables administrators to view data on participant performance on each standard. Data for each participant includes a listing of the entire standard set with the number correct, number incorrect, number not attempted, and percent correct for each standard element.

To use the Standards Performance report:

1. Click Standards Performance from the Reports menu. The Standards Performance report options and filters display.
   
   Note: If you would like to manually select standards to appear on the report, click the Select Standards to Report On button. Make selections then click the Select button to return to the options and filters.

2. Select an assessment.

3. Select the demographic fields.
4. Select participant(s).
5. Filter the report (optional).
   a. Click the checkbox to include only scored items, include only standards with results, or to accumulate results for all levels.
   b. Click the drop-down arrows to set an assessment administration date range.
   c. Click the participant/participants. To select multiple participants, press and hold the Control key while clicking participant names with the mouse.
   d. Click the + to expand the other filters.
6. Click the Show Standards Performance button. The Standards Performance report displays.

7. Print, e-mail, or save the report as a pdf or Excel file by following one of the steps below.
   a. Click the Print button to see a printable version of the report in your browser window.
   b. Enter an e-mail address to e-mail the report to yourself or someone else.
   c. Click Excel Output to open the report as an Excel file. This file can be saved on your local computer and distributed as needed.
   d. Click the PDF Output button to create a pdf version of the report.
Standards Performance Summary

This report enables administrators to see the aggregate data of all participants on each standard or skill area. The report lists the standard set and provides a graph of the percent correct for each standard element. This is very helpful when trying to improve teaching and in making remediation decisions.

To use the Standards Performance Summary report:

1. Click the **Standards Performance Summary** from the **Reports** menu. The Standards Performance Summary options and filters display.

2. Click the **Select Standards to Report On** button.
3. Click the check-box next to the standards you would like to have on the report. Deselect the standards to remove them from the report.
4. Click **Select**.
