Board Policy: microcredentials

Which board policies apply to microcredentials?

Policies

III.E. – Certificates and Degrees

III.G. – Postsecondary Program Review and Approval

III.L. – Prior Learning

III.Y – Advanced Opportunities

What's the difference?

Microcredential (Microcertification)

Non-credit bearing credentials awarded for mastery of defined skills or concepts, including career technical, academic, and/or industry-relevant skills. Shorter than traditional degrees/certificates. Measures skills not "seat time".

Digital Badge

A visual representation of a microcredential or stacked microcredential.

Digital badges are artifacts, much like a diploma, of the skill mastered.

Stacked Microcredential

A set of organized microcredentials after learners meet specific outcomes.

Completing stacked microcredentials may result in credit through institutions prior learning assessment policies.

Question: How are employers and industry using SkillStack®?

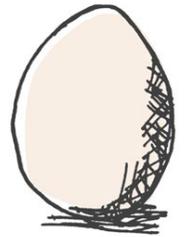

- 65+ employers currently in SkillStack®
- Why no promotion to Industry earlier?
 - No student emails so employers would find candidates but no responses to recruitment emails
 - Teachers not actively awarding badges.
 - Some high school programs weren't added yet (started with 9 up to 50+) = small candidate pool
- Chicken or egg.
 - Build candidate pool or build employer list... now 52K unique earners in SkillStack®.
